Supervising Officer’s Statement

I have the pleasure to present the Annual Report 2019/2020 of the Cooperatives Division of the Ministry of Industrial Development, SMEs and Cooperatives.

For the Financial Year 2019/2020, the Cooperatives Division has implemented various praiseworthy projects and programmes for the benefit of cooperatives and their members.

Emphasis was laid on provision of access to market for cooperatives. Thirty-seven cooperative market fairs were organized with a view to providing cooperators with a platform to market their produce; creating public awareness on the various products and economic activities in which cooperative societies are involved; assisting cooperators in widening their customer base; and encouraging networking.

Further, financial assistance was provided to fourteen cooperatives under the Cooperative Development Fund Schemes for upgrading their activities and acquisition of IT facilities. Also, the tertiary cooperative and three cooperative federations benefited from grants. These financial supports have assisted to consolidate, modernize and empower the cooperatives.

To be in line with the policy of Government to have a paradigm shift to renewable sources of energy, the Cooperatives Division and the CEB (Green Energy) Company Ltd provided financial and technical assistance to some 20 cooperatives for installing roof-mounted grid tie solar photovoltaic kits.

To encourage cooperatives to embark in emerging sectors, the Cooperatives Division through its training arm, the National Co-operative College, conducted various training programmes such as training in bio-farming, eco-bag etc. The National Co-operative College also organised a series of training and workshops to assist in the capacity building of cooperators, in general as well as specific fields.

Besides various other support services provided to cooperatives, the Cooperatives Division continued its Special Support Programme for women cooperatives to assist in the engendering of the cooperative movement.

In spite of the negative impact of COVID 19 and in view of sustaining the momentum, the Cooperatives Division continues to pursue its objective of empowering cooperatives through the provision of fiscal incentives, various financial schemes, financial and technical assistance, training, infrastructural facilities and implementation of cooperative development projects.

I would like to express my sincere gratitude to all our stakeholders and especially the staff of the Cooperatives Division for working for the enhancement of the Cooperative Movement.

The Cooperatives Division of the Ministry of Industrial Development, SMEs and Cooperatives is facilitating the promotion and development of cooperatives through the creation and provision of a favourable and conducive legal and institutional environment, along with adequate support and incentives.

Further, the Cooperatives Division is implementing a Strategic Action Plan 2018-2020 with the theme “Propelling Cooperatives towards Excellence”. The Plan is aligned with Government objectives and also captures the targets of the United Nations Sustainable Development Goals which are in the Agenda 2030, achieving sustainable production, food security, poverty alleviation, sustainable development and empowering women, amongst others.
Cooperatives, as democratic, member-run and member-financed self-help enterprises are contributing in the improvement of the economic and social conditions of the population. There are 653 cooperatives in Mauritius and 64 cooperatives in Rodrigues respectively (as at 30 June 2018). The presence of cooperatives is mostly dominant in many sectors of the economy such as sugar, agriculture, finance-credit union, public transport, livestock, fishing, tea.

To give a boost to co-operatives especially in the post COVID-19 era, Budget 2020/2021 has provided for the Development Bank of Mauritius(DBM) Ltd to earmark Rs10 billion to support distressed SMEs and Cooperatives. This measure will also facilitate access to finance for cooperatives.

Also, a Boost to Local Production Scheme for Cooperatives Societies, which is a budgetary measure 2020/2021 has been devised and will be operational in July 2020. The Scheme finances equipment, machineries and other related accessories to a maximum of Rs150,000 per cooperative related to local production of agricultural produce and food items. Cooperatives are being encouraged through this scheme to embark in or increase the local production of agricultural produce and food items with a view to giving a boost to our economy and also assisting the country in attaining food security.

Further, cooperatives are playing a key role as they are able to respond to both practical and strategic needs of women by providing access to income-generating activities. To further empower women in cooperatives, a Garment Making/Tailoring Project will be implemented. Women cooperators will be provided training in garment making and a package of incentives to enable them to start a tailoring business. The project aims at empowering women and assisting them to become financially independent.
Gender Statement
